This presentation will talk about:

- How to reach new customers when they are ready to buy.
- How to get customers to automatically call you when they need your products or services.
- Why members of our preferred provider program are given priority over the competition.
- How to eliminate much of the competition.
- Why you will make more sales.

Community associations want our free website service

- We provide **FREE** high quality, fully maintained websites for community associations throughout your service area.
- In exchange for our free service, all of our associations have agreed to include the vendors from our preferred provider list in all their bidding and/or proposal requests.

Our Mission Statement:

We will help our preferred provider members (vendors) grow their business by ensuring our community associations include our preferred provider members when requesting proposals or bids.

The best customers, are customers who are ready to buy now!

- To make sales, vendors must submit a bid or proposal whenever an association is ready to make a purchase of their products and services.
- Usually the decision to request bids for a product or service is made at a community association meeting. Proposals are then gathered for the next monthly meeting and a vote is made.

The best customers, are customers who call YOU first!

- The vendor has a very short window of time to capture the attention of the board of directors and/or community manager. Vendors lose a lot of business because they miss out on opportunities to bid.
- Our preferred providers are automatically contacted for proposals and bids!

More new business than ever before

- As a preferred provider member, you are listed with multiple associations within your service area.
- Associations automatically contact you whenever there is a need for your products and/or services.
- You will never miss out on opportunities to submit bids or proposals and make sales.

Invest in your business now and make more money now

- Each service area is limited to only 3 preferred providers per category. This gives you a huge advantage over the competition who are viewed as outsiders, and may not even get a chance to bid.
- You must act fast, because enrollment is selling out much faster than expected and is strictly limited to a first come, first served basis.

Community associations buy from you with confidence.

- We strictly prescreen our vendors, ensuring they are licensed, insured, reputable and they guarantee their work.
- We build credibility and trust for you. Then we bring you customers, and put you in a position to make the sale.
- Our strong relationships help you sell more.
